

Quick Reference Guide

Your health plan focuses on helping to keep you well, rather than just providing coverage for covered illness or injury. Your plan includes coverage for wellness services for women, men and children.

Your doctor will determine the tests that are right for you based on your age, gender and family history. Listed below are some services commonly provided as preventive care. Please see your plan materials for specific details about your coverage.

WELLNESS EXAMS AND IMMUNIZATIONS

	Birth to 2 Years	Ages 3 to 10	Ages 11 to 21	Ages 22 and older

² Certain preventive medications noted above may be available to you at no cost. Your doctor will be required to give you a prescription for these medications, including over-the-counter (OTC) medications, for them to be covered under your Pharmacy benefit.

These preventive health services are based on recommendations from the U.S. Preventive Services Task Force (A and B recommendations), the Advisory Committee on Immunization Practices (ACIP) for immunizations, and the American Academy of Pediatrics' Periodicity Schedule of the Bright Futures Recommendations for Pediatric Preventive Health Care. For additional information on immunizations, visit the immunization schedule section of www.cdc.gov. This document is a general guide. Always discuss your particular preventive care needs with your doctor.

Exclusions

This document does not guarantee coverage for all preventive services. Immunizations for travel are generally not covered. Other non-covered services can include any medical service or device that is not medically necessary, and any services and supplies for or in connection with experimental, investigational or unproven services. This document contains only highlights of preventive health services. The specific terms of coverage, exclusions and limitations, including legislated coverage, are included in the Summary Plan Description or Insurance Certificate.
